

cynicism of Euripides, I leave others to decide. It is quite clear that Euripides did think Orestes guilty. The only question is the means of redemption.

Finally, the others who share in the great reconciliation should be considered. It is to Menelaus that Apollo addresses his first words, words of comfort as much as reproof. He has been a pale character, snubbed by Tyndareus, reviled by Orestes, a patient listener to his nephew and his father-in-law when they are arguing what he should do. He is a poor creature and Apollo treats him with good-natured contempt. The explanation of Helen's assumption is for Orestes rather than him. The only instruction he is given is to go to Sparta and mind his own business; the only comfort, that he has lost a troublesome wife without losing her dowry. To Electra and Pylades not a word is spoken. They are to marry. They have shown themselves inhuman, both of the same type. Apollo says that they have a happy future before them. It seems impossible to us; but they too must be emerging from what they are into what they might have been. It is a brave new world; and the play closes in the clear atmosphere and bright light of Peace, fairest of goddesses, and of Victory.
